ABOUT ME

Second-year Computer Science and Mathematics student at Loughborough University, seeking a year-in-industry placement to apply analytical and programming skills to data-driven, commercial, or technical challenges in a professional environment.

EXPERIENCE

Bank Administrator
NHS Royal Marsden

📅 July 2024 – September 2025   📍 Sutton

- Supported haematology research and secretariat teams with administrative and coordination tasks.
- Maintained and updated structured Excel datasets, ensuring data accuracy for research and scheduling decisions.

Team Member
The Light

📅 June 2023 – November 2024   📍 Redhill

- Worked part-time at The Light, a cinema and entertainment complex, for over a year.
- Trained as a barista and bartender while developing strong customer service and teamwork skills.

PROJECTS

Forex Trading
Financial markets Online

- Completed FMO's 90-day fast-track forex trading programme, building a structured Excel log to track profit and loss, risk exposure, and strategy performance through back-testing.

Personal Website
Independent Project

- Built and maintain a personal website using HTML and CSS.
- Available at: https://maxwright54321-arch.github.io/Maxwell-Site/

INTERESTS

- Team sports and leadership – Captained my youth football team for four years, developing communication, accountability, and resilience.
- Global perspective and travel – Lived in Dubai for ten years, gaining exposure to different cultures and ways of working.
- Financial markets and data – Strong interest in markets, analytics, and performance measurement, supported by independent trading and data projects.

MOST PROUD OF

DofE Gold
Completed the Duke of Edinburgh bronze, silver and gold awards
