
MAXWELL WRIGHT

Redhill, Surrey RH1 6JT | 07522025382 | maxwright54321@hotmail.co.uk

Summary

Second-year Computer Science and Mathematics student at Loughborough University with strong analytical, programming and problem-solving skills. Proficient in Python, Java, SQL, Excel and Power BI, with experience developing software and data-driven projects involving statistical analysis and visualisation. Seeking a Year in Industry to apply technical and analytical thinking to solve real-world business and technology solutions.

Experience

Bank Administrator **07/2024 to 09/2025**
NHS Royal Marsden **Sutton, England**

- Maintained and validated structured Excel datasets, ensuring a high level of accuracy and data integrity to support research delivery and operational decision-making.
- Coordinated meetings, schedules and communications on behalf of the Head of Research Delivery, liaising with doctors, researchers and administrative teams to ensure priorities and deadlines were managed effectively.

Team Member **06/2023 to 09/2024**
The Light **Redhill, England**

- Provided customer service at The Light cinema and entertainment complex for over a year, enhancing guest experiences through effective communication and teamwork.
-

Projects

Quantitative Trading Research Project (Python, Excel, Power BI)

- Developed a Python-based backtesting system to evaluate foreign exchange trading strategies using historical market data. Used Excel and Power BI to analyse results, identify trends and create interactive dashboards to effectively visualise performance.

Poker Probability Simulator (Python)

- Designed and developed a desktop poker simulator using Python and Tkinter, implementing probability calculations and statistical analysis to model gameplay scenarios.
- Integrated the Google Gemini API to develop AI-powered poker agents with distinct personalities and decision-making strategies, creating more realistic gameplay simulations.

Personal Portfolio Website (HTML, CSS, Github Pages)

- Personal website showcasing additional software projects, technical coursework and source code: <https://maxwright54321-arch.github.io/Maxwell-Site>
-

Education

BSc: Computer Science and Mathematics **06/2026**
Loughborough University

- Modules include: Probability and Statistics, Analysis, Group Project, and AI Methods
- Expected grade: First Class Honours

A-Level **07/2024**
Reigate Grammar School

- Results: Mathematics: A*
 - Physics: A*
 - Chemistry: A
-

Achievements

- DoFE Gold, Completed the Duke of Edinburgh bronze, silver and gold awards.
- CISI level 2 qualification, I was awarded with the CISI level 2 qualification for fundamentals in financial services.

- Headmasters Scholarship for Academic Excellence, Awarded following outstanding GCSE performance.

Professional Development

- **Financial Markets Online – Fast Track Programme** – Completed structured training covering market structure, macroeconomics, risk management and systematic trading strategies.
- **Marex Headquarters Visit** – Invited to Marex's London headquarters for a private tour, gaining insight into institutional trading and financial markets technology.

Skills

Technical Skills:

- Java
- Python
- HTML and SQL
- Git

Data & Analytics

- Excel (Pivot Tables, Lookups, Charts)
- MATLAB
- Power BI

Professional Skills:

- Analytical problem solving
- Data analysis & visualization
- Team collaboration
- Attention to detail

Interests and Hobbies

- Team sports and leadership - Captained my youth football team for four years, developing communication, accountability, and resilience.
- Global perspective and travel - Lived in Dubai for ten years, gaining exposure to different cultures and ways of working.
- Data and technology - Enjoy applying programming, statistics and data analysis to solve practical problems through independent software and analytical projects.
